Re: Application for Change under Ground Water Certificate No. 7322-A

Dear Mr. Lowe:

In response to your request, you are hereby granted an extension to complete construction for the reason(s) below:

According to your request, the system as developed does not have enough instantaneous capacity to run both the irrigation system and the industrial use at the same time. You have requested additional time to possibly add an additional well, or install an additional pump, increase mainline size and change from the current irrigation system. Please note a well can only be added under the Showing of Compliance 90.44.100(3) form or by filing a second change application. It appears you have made substantial goals in completing your project. Your request is for a reasonable and short period of time. We will grant you an additional three years to complete your project.

The new deadline to submit your *Construction Notice* is **May 1, 2013**.

You have a right to appeal this decision. To appeal this you must:

- File your appeal with the Pollution Control Hearings Board within 30 days of the "date of receipt" of this document. Filing means actual receipt by the Board during regular office hours.
- Serve your appeal on the Department of Ecology within 30 days of the "date of receipt" of this document. Service may be accomplished by any of the procedures identified in WAC 371-08-305(10). "Date of receipt" is defined at RCW 43.21B.001(2).

Be sure to do the following:

- Include a copy of the document that you are appealing.
